

SKADI

BIO

Skadi is an improvisational, dynamic, jam-pop band based in the Denver area that plays mostly original music with a handful of tasty interpretations of covers thrown in. The band lineup consists of Erica Bisbey on keys and lead vocals, Candace Horgan on guitar, Sarai Worsham on lead vocals and keys, Amy Onwudinanti on drums, and Tommy Rokita on bass.

Skadi was formed in spring 2016, and quickly moved into the studio to record this newly crafted vision, and the resulting EP, "The Only Missing Thing," was released in June 2016. In 2017, the band released a new single, "No Love Without Freedom," and an accompanying video that was shot in and around Red Rocks.

The group's melodic style incorporates elements of folk, pop, rock, funk, and blues. Singer Erica Bisbey, has been compared to Stevie Nicks, Gwen Stefani, and Tori Amos. Songwriting is inspired by everyday life, everything from heartache and moving on

to newly found love.

What do they really sound like? The group incorporates elements from many of its influences, which include Phish, Florence + the Machine, Led Zeppelin, and Lucius, to create something wholly original.

The music speaks for itself: driving guitar rhythms, eclectic solos exploiting a wall of effects, electronic synth mixed with the simplicity and innocence of clean, catchy piano riffs, and symphonic walking bass married with solid funk rock and jazz drum grooves. Each player is an artisan in their own right, making room for dynamic and improvisational fluidity. The music relies on sonic textures as much as the melody itself.
